

Product Overview- Parat Paraproject® U32

Secure & Intelligent 32 bays charging cart for your mobile computing devices

- The cart is ideally working for mobile ICT deployment, transporting, securing, protecting and charging up to 32 devices. Furthermore, it is compatible to working with almost any model of tablets, Chromebook, and laptops with a display size up to 15.6".
- The cart uses one power cord to plug into standard wall outlet. It supports two charging option models, with intelligent charging controller it can optimizes the total charge time while safely prevent electrical circuit overload, or user can pick up the model without controller to charge all devices simultaneously for low power loading devices such as tablet.
- The cart provides a clean cable management and original AC adapter storage for easy one-time setup. Sliding shelves can be used to speed up the device distribution process in the classroom.

Product Features- Paraproject® U32

Elegant, compact & durable design, saving space and easy to maneuver

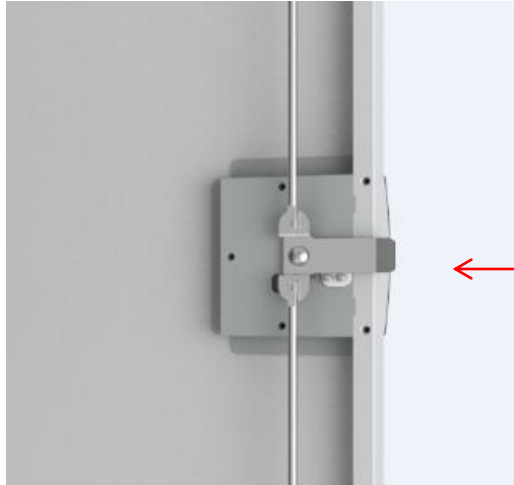

- Compact size, small, and does not occupy space.
- Combination of steel and plastic for durable structure, quality look and less weight
- 5" wheels with brakes and move easily by handle.

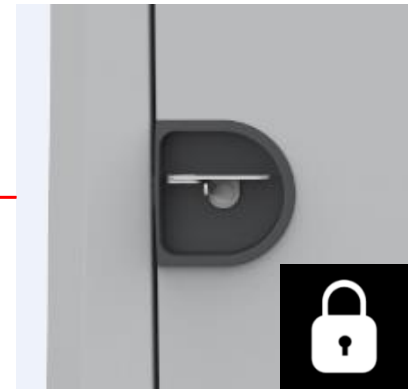

Product Features- Paraproject® U32

Security , keep your valuable devices safe

- **Solid , Safety**
- Protect your valuable devices from stealing and damage with a 3-point steel locking mechanism

Product Features- Paraproject® U32

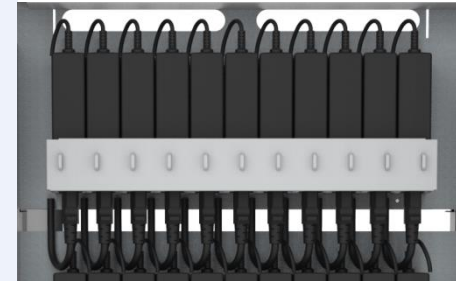

Sliding shelves , AC adapter storage and clean cable management

Put in/take out your devices easily by sliding shelves

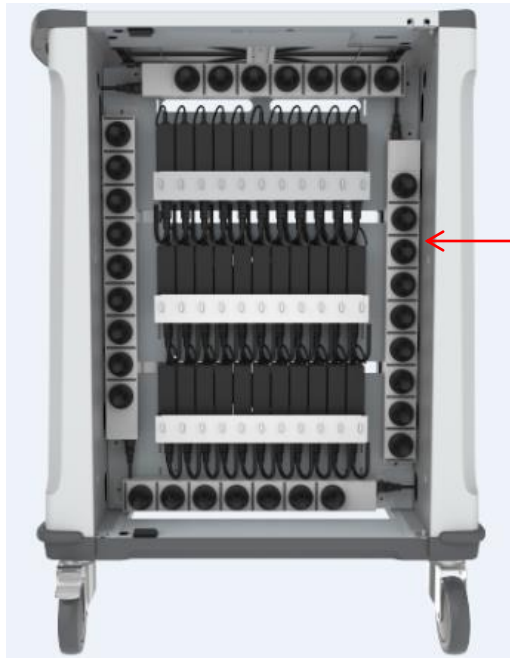

AC adaptor storage can fit for most of size and shape of AC adapter in the market

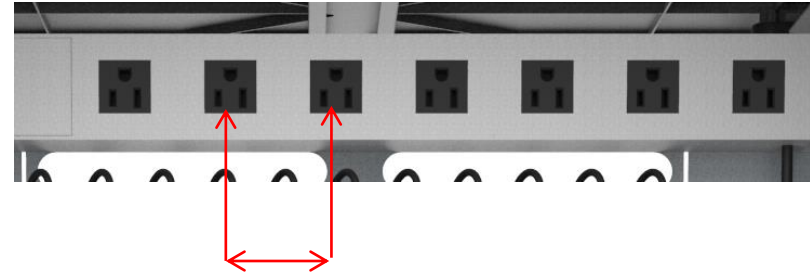

Product Features- Paraproject® U32

Supports EU power strip for different area application & LED indicator

Support EU (Standard)
UK/AU/US/ (on
request) power outlet

55mm pitch of power outlet can accommodate
most of size and shape of adapter

Top Side

Charge display Indicator

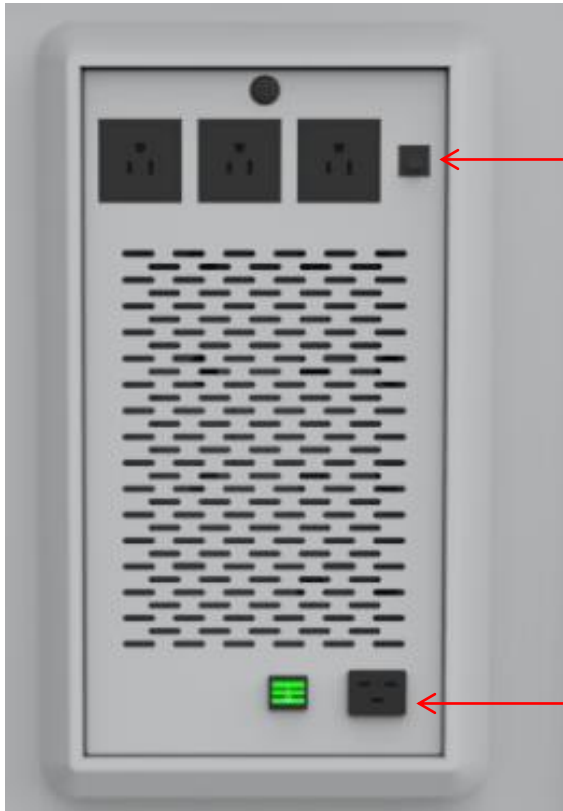

PWR : Power on

CH1~CH2 : ON Charge

Product Features- Paraproject® U32

Three auxiliary power outlets for user application

Supports three auxiliary power outlet for EU (Standard), US, UK and AU type (on request)

On/off Power switch breaker

- 240V AC Power outlet

- Cable management of power cord
